DIVYAM SUDHAKAR CHAUDHARI

SOFTWARE QUALITY ENGINEER | QA AUTOMATION

Pune, India | +91-9511623290 | divyamschaudhari@gmail.com | LinkedIn | Portfolio | GitHub

PROFESSIONAL SUMMARY

Software Quality Engineer with experience testing statistical web applications across functional, regression, integration, API, and end-to-end workflows. Designs and executes manual test coverage and automates browser flows with Playwright and JavaScript. Experienced with REST API validation, JIRA defect management, and Agile release validation. Contributed to a JIRA ROVO workflow that reduced test design effort by approximately 40%.

TECHNICAL SKILLS

Automation: Playwright, Selenium WebDriver, TestNG, Cucumber/BDD, Page Object Model (POM), Maven

API and data: Postman, REST API testing, RestAssured, JSON validation, HTTP methods and status codes, SQL

Testing: Functional, regression, integration, smoke, sanity, exploratory, end-to-end, UAT, cross-browser, black-box

Quality processes and tools: JIRA, JIRA ROVO, TestRail, test planning, test case design, RTM, defect lifecycle and triage, release validation

Languages and practices: Java, JavaScript, GitHub, SDLC, STLC, Agile/Scrum, AI-assisted testing

PROFESSIONAL EXPERIENCE

Software Quality Engineer | Cytel Statistical Software & Services Pvt. Ltd.

Pune, India | Feb 2025 – Present

- Designed and executed 150+ functional, regression, integration, and API test cases for statistical web applications, supporting release readiness across multiple Agile/Scrum releases.
- Automated end-to-end flows in Playwright with JavaScript across multiple scenarios and 50+ complex features; used AI-assisted development to accelerate script creation.
- Validated REST APIs in Postman, checking requests and responses, HTTP status codes, payloads, and backend data.
- Documented and tracked defects in JIRA and partnered with developers through triage and resolution to support on-schedule releases.
- Helped build a JIRA ROVO AI-assisted test scenario workflow that generates structured, requirement-linked scenarios, reducing test design effort by approximately 40% and standardizing team coverage.

QA Analyst Intern | Telosa Services Private Limited

Pune, India | Aug 2024 – Jan 2025

- Reviewed Software Requirement Specifications and designed 80+ manual test scenarios covering major application workflows.
- Logged, tracked, retested, and verified JIRA defects with clear reproduction steps and supporting evidence; performed functional, regression, smoke, and exploratory testing in an Agile environment.
- Built a Selenium WebDriver and Java automation proof of concept using Page Object Model to evaluate automation feasibility.

EDUCATION

Bachelor of Engineering (B.E.) | Savitribai Phule Pune University (SPPU) | 2020–2023 | CGPA: 8.7/10

Diploma in Engineering | Maharashtra State Board of Technical Education (MSBTE) | 2017–2020 | 92.77%

CERTIFICATIONS

ISTQB Certified Tester – Foundation Level (CTFL v4.0) | UK & Ireland Testing Board | 2026

Software Development Engineer in Test (SDET), Grade A+ | SEED Infotech Pvt. Ltd. | 2025
