

DIVYAM SUDHAKAR CHAUDHARI

Software Development Engineer in Test (SDET) | QA Automation Engineer | ISTQB CTFL v4.0 Certified

Functional Testing | Selenium WebDriver | Playwright | API Testing | Test Automation | AI-Powered QA

Pune, India | +91-9511623290 | divyamschaudhari@gmail.com | [linkedin.com/in/divyamchaudhari](https://www.linkedin.com/in/divyamchaudhari) | github.com/divyam-c | Portfolio: [Divyam](#)

PROFESSIONAL SUMMARY

ISTQB CTFL v4.0 Certified Software Development Engineer in Test (SDET) / QA Automation Engineer with 2+ years of experience in manual testing, test automation, and API testing for web applications. Skilled in functional, regression, integration, smoke, and end-to-end testing using Selenium WebDriver, Java, TestNG, and Postman within Agile/Scrum environments. Actively building expertise in modern automation with Playwright (JavaScript) and AI-agentic testing workflows, including an AI-powered test case generation tool that cut test design effort by ~40%. Strong background in defect lifecycle management, test planning, requirement traceability, and root cause analysis, with a consistent record of zero critical post-release defects. Seeking an SDET / QA Automation Engineer / Software Test Engineer role to drive quality engineering and continuous testing initiatives.

CORE COMPETENCIES

Testing Types: Manual Testing, Test Automation, Functional Testing, Regression Testing, Integration Testing, Smoke Testing, Sanity Testing, Exploratory Testing, End-to-End (E2E) Testing, API Testing, UAT, Cross-Browser Testing, Black-Box Testing

Automation Tools: Selenium WebDriver, Playwright (JavaScript), TestNG, Cucumber (BDD), Page Object Model (POM), Maven, JUnit basics

API & Backend Testing: Postman, REST API Testing, JSON Validation, API Integration Testing, SQL, Database Testing

Languages: Java (OOP), JavaScript, SQL

Tools & Platforms: JIRA, TestRail, Git, GitHub, GitHub Actions (CI/CD), GitHub Copilot, ROVO, Eclipse, VS Code, ChatGPT, Claude

Methodologies & Practices: Agile, Scrum, SDLC, STLC, Test Planning, Test Case Design, Defect Lifecycle Management, Requirement Traceability Matrix (RTM), Root Cause Analysis, Sprint Planning, Defect Triage

Emerging Skills: AI-Powered Test Automation, AI Agentic Workflows, LLM-based Test Case Generation, CI/CD Pipeline Integration

PROFESSIONAL EXPERIENCE

Software Quality Engineer | Cytel Statistical Software & Services Pvt. Ltd., Pune

Feb 2025 – Present

- Built an AI-powered test case generation agent using ROVO (JIRA AI), auto-generating structured, requirement-linked test scenarios — reducing test design effort by ~40% and standardizing test coverage across the QA team.
- Initiated a Playwright (JavaScript) test automation framework using an AI-agentic approach, with planned integration into CI/CD pipelines via GitHub Actions for continuous testing.
- Designed and executed 150+ functional, integration, regression, and API test cases for statistical web applications, achieving zero critical post-release defects across 5+ production releases.
- Validated REST APIs using Postman, verifying request/response integrity, error handling, and data accuracy across multiple endpoints.
- Logged and managed 40+ defects in JIRA with detailed root-cause analysis, partnering with developers to reduce average defect resolution time by ~25%.
- Participated in Agile/Scrum ceremonies including sprint planning, defect triage, and daily standups; authored release sign-off and test summary documentation.

QA Analyst Intern | Telosa Services Private Limited, Pune

Aug 2024 – Jan 2025

- Derived 80+ manual test scenarios from SRS documents and executed functional and regression testing across multiple application modules.
- Reported and tracked 30+ defects in JIRA with complete reproduction steps, ensuring full traceability throughout the defect lifecycle.
- Developed a Selenium WebDriver + Java test automation Proof of Concept (POC) within a pre-built framework, validating feasibility for future automation adoption.

Associate QA Consultant | Innovatus Engineering Solutions, Mumbai

Jul 2023 – Aug 2024

- Delivered QA consulting support for web-based business applications, driving functional, regression, and exploratory testing activities.
- Authored 100+ manual test cases and a Requirements Traceability Matrix (RTM) to ensure test coverage aligned with functional requirements.
- Tracked defects and supported UAT activities across Agile sprints, coordinating with stakeholders during pre-release validation.
- Performed API verification and testing using Postman; assisted with test documentation and client sign-off deliverables.

KEY PROJECTS

TestGenie AI — AI-Powered Test Case Generator | Next.js, React, OpenRouter API, Tailwind CSS, LLM Integration

- Built a full-stack AI application that generates structured QA test cases directly from product requirements using LLM integration, showcasing applied AI in software testing workflows.
- Live demo: testgenie-ai.vercel.app

Tricentis Vehicle Insurance — Test Automation | Selenium WebDriver, Java, TestNG, Maven, Page Object Model

- Automated 50+ end-to-end test cases achieving ~75% regression coverage; implemented parallel test execution and HTML reporting via TestNG.
- Structured the automation framework using Page Object Model (POM) for maintainability and cross-browser reusability.

OpenCart — Functional & API Testing | Postman, REST API, SQL, JIRA

- Executed functional and regression testing for core e-commerce workflows (cart, checkout, user management); validated 20+ REST API endpoints using Postman.

OrangeHRM — Manual Testing | JIRA, TestRail

- Designed 60+ manual test scenarios across Login, User Management, and Leave modules; logged 15+ defects with severity/priority classification in JIRA.

EDUCATION

Bachelor of Engineering — Savitribai Phule Pune University (SPPU) | CGPA: 8.7/10 | 2020 – 2023

Diploma in Engineering — Maharashtra State Board of Technical Education (MSBTE) | 92.77% | 2017 – 2020

CERTIFICATIONS

- ISTQB® Certified Tester – Foundation Level (CTFL v4.0), UK & Ireland Testing Board — 2026
- Software Development Engineer in Test (SDET) – A+ Grade, SEED INFOTECH Pvt. Ltd. — 2025
- AI for Software Testers: Apply AI Tools and Techniques to the STLC, LinkedIn Learning — 2025
- The Complete 2024 Software Testing Bootcamp, Udemy — 2025
