PROFESSIONAL SUMMARY

QA Automation Engineer and SDET with 2.5+ years of experience in test automation, API testing, and regression testing for web applications. Skilled in Playwright (JavaScript), Selenium (Java), Postman, and SQL, with hands-on defect management in JIRA across Agile/SDLC release cycles. Automated end-to-end flows across 50+ complex features and helped cut test design effort by ~40% through an AI-assisted test generation workflow. ISTQB CTFL certified; focused on CI/CD-driven quality engineering.

TECHNICAL SKILLS

Test Automation: Playwright, Selenium WebDriver, TestNG, Cucumber/BDD, Page Object Model (POM), Maven

API & Database Testing: Postman, REST API Testing, RestAssured, JSON Validation, HTTP Methods & Status Codes, SQL

Testing Types: Functional, Regression, Integration, Smoke, Sanity, Exploratory, End-to-End, UAT, Cross-Browser, Black-Box

Defect & Test Management: JIRA, TestRail, Defect Lifecycle, Defect Triage, Test Planning, Test Case Design, RTM, Release Validation

CI/CD & Version Control: Jenkins, GitHub Actions, Git, GitHub, CI/CD Pipelines

Languages & Methodologies: Java, JavaScript, TypeScript, SQL | SDLC, STLC, Agile/Scrum, AI-Assisted Testing

PROFESSIONAL EXPERIENCE

Software Quality Engineer | Cytel Statistical Software & Services Pvt. Ltd. | Pune, India | Feb 2025 – Present

- Designed and executed 150+ functional, regression, integration, and API test cases for statistical web applications across multiple Agile/Scrum releases.
- Automated end-to-end flows in Playwright (JavaScript) across 50+ complex features, using AI-assisted development to accelerate script creation.
- Validated REST APIs with Postman (payloads, HTTP status codes, backend data checks); tracked defects in JIRA and drove triage with developers to resolution.
- Process improvement:** Helped build an AI-assisted test scenario generation workflow in JIRA ROVO producing structured, requirement-linked scenarios, reducing test design effort by ~40%.

QA Analyst Intern | Telosa Services Private Limited | Pune, India | Aug 2024 – Jan 2025

- Analyzed SRS documents and designed 80+ manual test scenarios; logged, retested, and verified defects in JIRA with clear reproduction steps.
- Built a Selenium WebDriver + Java proof of concept using Page Object Model to evaluate automation feasibility.

QA Consultant (Freelance / Contract) | Innovatus Engineering Solutions | Mumbai, India | Aug 2023 – Aug 2024

- Designed 100+ end-to-end test cases, maintained the RTM, and performed functional, regression, exploratory, and cross-browser testing.
- Supported UAT and release validation; validated REST APIs in Postman and delivered release sign-off documentation.

SELECTED QA & AUTOMATION PROJECTS

- E-Commerce E2E Automation** (*Playwright, TypeScript/JavaScript, POM, SQL*): Reusable cross-browser suite for login, search, cart, and checkout with traces and automated reporting.
- REST API Testing Suite** (*Postman, Java/RestAssured, JSON, SQL*): Positive, negative, and boundary tests for CRUD, authentication, and error handling with SQL data validation.
- CI/CD Regression Pipeline** (*Selenium/Playwright, TestNG, Maven, Jenkins, GitHub Actions*): Automated checkout, install, test, and reporting stages, structured for parallel execution.

EDUCATION

Bachelor of Engineering | Savitribai Phule Pune University (SPPU) | 2020 – 2023 | CGPA: 8.7/10

Diploma in Engineering | MSBTE | 2017 – 2020 | 92.77%

CERTIFICATIONS

- ISTQB Certified Tester – Foundation Level (CTFL v4.0), UK & Ireland Testing Board, 2026
- Software Development Engineer in Test (SDET), Grade A+, SEED Infotech, 2025
- AI for Software Testers: Apply AI to the STLC (LinkedIn Learning, 2025); Complete Software Testing Bootcamp (Udemy, 2025)
